

# RESHAPING SATELLITE CONNECTIVITY WITH INNOVATIONS DRIVEN BY NECESSITY

# GUIDED BY EXPERTISE

With years of experience in satellite communications, we design solutions that meet the needs of end-users and service providers, enhancing connectivity for disaster relief, remote areas, and industries like agriculture, healthcare, and education.

Our goal is to make connectivity faster, simpler, and more impactful.

# KACIFIC COVERS 25 COUNTRIES IN ASIA PACIFIC

- American Samoa
- Bangladesh
- Bhutan
- Brunei
- Cook Islands
- East Timor
- Fiji
- French Polynesia
- Guam
- Indonesia
- Kiribati
- Malaysia
- Micronesia
- Myanmar
- Nepal
- New Zealand
- Niue
- Northern Mariana
- Papua New Guinea
- Philippines
- Samoa
- Solomon Islands
- Tonga
- Tuvalu
- Vanuatu

# ACCELERATE DEPLOYMENT WITH KACIFIC'S WIDE WAREHOUSE FOOTPRINT

27 warehouse locations across the Asia Pacific Region

## Warehouses Scope

- Storage of Goods
- Inventory Management
- Order Fulfillment
- Value-Adding Services: product assembly, packaging, labeling
- Security and Protection
- Logistics and Distribution

# INNOVATIONS BORN FROM NECESSITY

- Recognising the **high costs, inefficiencies, and delays** of traditional VSAT deployments in **remote areas**, we identified an urgent need for a more adaptable and reliable solution.
- Designed to be **affordable, reliable, and efficient**, **PointCast** and **PointCast Go** were born out of this necessity, reflecting our commitment to making connectivity accessible for all.

An **auto-pointing satellite antenna** offering fast, reliable connectivity with **no manual adjustments**, **ideal for remote or disaster recovery areas**, ensuring **quick setup and high-performance**.

A **compact, portable satellite communication solution** for rapid deployment in disaster response or remote operations, offering reliable, high-speed connectivity for **flexible, on-the-go communication**.

# INNOVATIONS BORNED FROM NECESSITY

- In **emergencies** and **disaster** situations, communication is crucial to ensuring an efficient and coordinated response.
- Specifically designed for **first responders, civil defence, police** and **not-for-profit organisations**, Kacific CommsBox series offer an all-inclusive technology solution to **quickly re-establish connectivity and communications**.

All-in-one Emergency &  
Disaster Response  
Communication Box

Enhanced Version of  
Emergency & Disaster  
Response Communication Box

# PointCast

Reliable, Self-calibrating,  
Self-pointing Motorised System

Plug and play for effortless installation without the need for a team of installers

Automated Realignment of Poorly Pointed Terminals

Autonomous safety storage during adverse weather condition

Compatible with 3W Transceiver and 2510 Modem

Compatible with different dish sizes: 75cm, 1m and 1.2m

Seamless Monitoring, upgrades, complete remote and local control

Fast and Affordable Repairs with Commercial Off-The-Shelf (COTS) Parts

**PointCast**  
Powered by Kacific

# PointCast

**PointCast**  
Powered by Kacific

## Wide Satellite System Compatibility

Compatible with **Geo, Inclined Geo and Meo Satellites**

Compatible with both **Ka-band** and **Ku-band**

Price (EXW Singapore, before tax, with 1 year warranty)

Circular Polarization: **USD 900**

- Add on a Terminal Kit: **USD1,000**

Linear Polarization: **USD 970**

# Market Applications Of PointCast

Every geography. Every nation. Every community.

# PointCast Go

Portable, user-friendly, high-speed internet  
Connectivity anywhere

Auto-pointing system for immediate, reliable, seamless connectivity

Automated operations, no technical expertise needed

Easy-to-carry design for front-line deployment

Reliable, fast, on-demand connectivity

Up to 50 Mbps  
(40 Mbps Downlink, 10 Mbps Uplink)

Shipment Term and duration:  
EXW Singapore ~8 Weeks

Retail Price: **USD 2,000**  
(Equipment only, 1 Year Warranty)

# Market Applications Of PointCast Go

Every geography. Every nation. Every community.
